

A dark blue world map is centered in the background. In the top right corner, there is a cluster of five lightbulb icons, some inside a wireframe cube. In the bottom right corner, over the South American continent, there is a single lightbulb icon.

Milestone 13 In-Class Feedback, Milestone 14 & 15 Instructions

(2017-05-24, 2017-05-26)

# Milestone 14 - FINISH IMPLEMENTATION

Due: Wednesday, May 31 at 1pm

- By this milestone, your app should be complete and ready for your TA to grade in class on Wednesday and Friday!
- Create a milestone14.md Markdown file in GitHub repo, containing:
  - Description of what each team member has done on the project since you wrote up milestone13.md for Milestone 13.
  - A brief description of all of the completed features of your app.

# Milestone 15 - 2-minute SILENT video demo

Due: Sunday, June 4 at 11:59pm (note the unusual time)

- Each group will be standing in front of class to give a 2-minute final project presentation (play your silent video and talk over it), followed by 2 minutes of question/answer. Finish video by Sunday, June 4 11:59pm.

# In-class activity for Wednesday and Friday:

- When you visit a team, get them to demo their app to you. It doesn't have to be super-polished at this point, though. (If you're giving feedback remotely, just look at the milestone I3.md file, even though that's not ideal.)
- All teams who got visited **MUST** fill out **THIS FORM**
  - (if some team didn't visit you, then mark them as absent)
- Each team should add feedback as a single comment to the "Milestone I3 feedback" GitHub issue. *But each team member should leave individual feedback labeled with their name.*

Feedback format (specific UI redesign suggestions):

**"The most important thing to finish by next week is: "**

Team A3: Our Awesome Team Name

John:

The most important thing to finish by next week is: - <paragraph>

Jane:

The most important thing to finish by next week is: - <paragraph>
