Milestone 13 Rest of your app UI (2 of 2)

Due: Wednesday, May 24 at 1pm

- Finish making progress on the rest of your app UI that surrounds your core map/geo part. This is the 2nd of the 2 weeks for this set of milestones to finish up the UI that surrounds your core map/geo part.
 - **By this milestone, your app should be working & nearly complete!**
 - If you want to do more by this milestone, then go for it :)
- Create a milestone13.md Markdown file in GitHub repo, containing:
 - Description of what each team member has done on the project since you wrote up milestone11.md for Milestone 11.
 - At least one screenshot of the rest of your app's UI (not map/geo part) that is different than Milestone 11's screenshot or an improved version
 - You can include more screenshots if you want!

In-class activity for Wednesday and Friday:

- When you visit a team, get them to demo their app to you. It doesn't have to be super-polished at this point, though. (If you're giving feedback remotely, just look at the milestone I I.md file, even though that's not ideal.)
- All teams who got visited **MUST** fill out **THIS FORM**
 - (if some team didn't visit you, then mark them as absent)
- Each team should add feedback as a single comment to the "Milestone I I feedback" GitHub issue. *But each team member should leave individual feedback labeled with their name.*

Feedback format (specific UI redesign suggestions):

"I wish your UI did this:"

```
Team A3: Our Awesome Team Name
John:
I wish your UI did this: - <paragraph>

Jane:
I wish your UI did this: - <paragraph>
[...]
```
